

# HUNTERS®

## Residential Block Management

*At Hunters RBM we pride ourselves on providing a professional and friendly service, with our expert team happy to help answer all your questions and enquiries.*

Hunters Residential Block Management

*Protecting, maintaining and enhancing properties throughout the UK.*

As a Director or Lessee of your own Resident Management Company, our talented team are able to deliver you a full and flexible service.

From payment collection to reporting expenditure and income, we take care of managing every aspect of your accounts. We provide full transparency in our charging, fees and terms of appointment.

*“Protecting, maintaining and enhancing properties throughout the UK”*

With extensive, up to date property knowledge, we also ensure that you meet your obligations as a property owner, from health and safety to the appropriate insurance.

By using our comprehensive block management services, Directors and lessees are free to enjoy more free time doing what they love to do most. We therefore take care of the service, maintenance, and management of the building for you.

We work efficiently and proactively to make sure that your block remains well maintained clean, safe and secure for residents. Whilst many management agents have their own in-house maintenance and service team, meaning they're double dipping into your funds, Hunters RBM outsource to local contractors where we possibly can.
